FURNITURE AWARD

WINNER STACK

Designed by Shay Alkalay for Raw Edges **Price** From £1,762.50
Contact 020 7608 0990, establishedandsons.com

Stack is a radical revamp of the chest of drawers, which ingeniously liberates the drawers from the chest. Each drawer compartment can be pulled out without threatening the stability of the piece. The drawers, which vary subtly in size and colour, can be pulled out from behind so that Stack can sit quite happily in the middle of the room. With partly opened drawers, the piece has a sculptural charm all of its own. "I always think chests of drawers look more intriguing when the drawers are left partly open," says their designer, Shay Alkalay. The piece comes in two sizes – with 13 drawers, as shown, or eight – and typifies the designer's aim of creating "animated products" that come to life through being used.

RUNNERS-UP

WAVE TABLE

Designed by Kay+Stemmer for Mark Product **Price** From £900 **Contact** 01326 375514, markproduct.com

STELLA TABLE

Designed by Nathalie Dawaz for Habitat **Price** £799
Contact 0844 499 1111, habitat.co.uk

FLOORING AWARD

WINNER

THE ROCK 'N' ROLL COLLECTION

Designed by Melinda Ashton Turner for Alternative Flooring
Price £45.75sq m **Contact** 01264 335111, alternativeflooring.com

Working with interiors stylist Melinda Ashton Turner, Alternative Flooring developed the Rock 'n' Roll carpet collection with the aim of making floors more exciting. The range features six tightly looped striped designs, each with elegant narrow bands of pattern in a choice of six carefully controlled colourways. The carpet is made from pure new wool, with a heavyweight pure backing. Suitable for heavy domestic use, it is ideal for stairs and living rooms. These striped designs have the advantage of concealing dirt and stains, without being obtrusive. The carpet can be fitted wall-to-wall or loose-laid as a square with a border. The stripes in the Rock 'n' Roll Collection team with plain colours from the company's range.
